

Hello — *I'm Masood.*

Design, print & project management for
organisations across the UK.

Thank you for taking a moment to read this. I run MN Studio, an independent design and print studio that project-manages creative and print work from concept to completion for organisations across the UK. Whether it's a new identity, a magazine, an event or a box of business cards, I handle the creative, the artwork, the print production and the delivery — so you have one point of contact and nothing falls between the gaps.

WHY WORK WITH ME

01 Managed end to end

From concept to completion, I manage every stage — creative, artwork, print production and delivery — as your single point of contact.

02 Print & production management

I specify stocks and finishes, manage trusted UK print partners and quality-check every job before it is released.

03 Fast turnaround

Most print is ready in 1–4 working days once artwork is signed off, with express options when it's urgent.

04 Wherever you are in the UK

Briefs, proofs and sign-offs work by phone, video call and email, with delivery to any UK address.

05 Pre-press checked

Every file is preflighted for bleed, resolution and colour before it goes to press, so it arrives right first time.

06 No-risk start

A free concept mock-up if you'd like one, and a fixed quote before any work begins.

WHAT I CAN HELP WITH

Project & print management

Brand identity

Publications & editorial

Event & exhibition graphics

Marketing & campaign print

Signage & large format

Artwork & pre-press

Merchandise & gifts

If you have something coming up — a refresh, an event or a reprint — I would be glad to help. I am happy to mock up an idea based on what you use now, free and with no obligation.
